Aqdus Farooq

Date of birth: 12/12/1991 | **Phone:** (+92) 3334948105 (Mobile) | **Email address:** aqdusfarooq4@gmail.com | **LinkedIn:** www.linkedin.com/in/aqdusfarooq | **Whatsapp Messenger:** +923334948105 | **Address:** Lahore, Pakistan (Home)

ABOUT MYSELF

Innovative game developer with 8 years of industry experience in gaming field and 4 years experience as Lead Unity Developer with proper foundation of education in computer science. Hard working, motivated and problem solving team player as well as team leader seeking lead game developer position to utilize knowledge and skills to advance portfolio and potential for increased responsibility.

WORK EXPERIENCE

01/02/2025 - CURRENT - ISLAMABAD, PAKISTAN

LEAD UNITY DEVELOPER ABSINTHE SOFTWARE

- Spearheaded end-to-end game development using Unity, from concept and architecture design through deployment and post-launch updates.
- Led and mentored a cross-functional team of developers, designers, and artists, ensuring timely delivery of high-quality, scalable game projects.
- Translated game design documentation into robust, maintainable, and optimized technical implementations aligned with product vision.
- Architected and developed modular C# gameplay systems, UI frameworks, networking components, and backend integrations across multiple platforms (Android, iOS, WebGL, PC).
- Implemented dynamic content delivery pipelines, asset bundling, and performance optimization techniques to ensure seamless gameplay and reduced load times.
- Integrated third-party SDKs and APIs, including analytics, payments, ads, authentication, and cloud services, to enhance functionality and user experience.
- Collaborated closely with product owners, designers, and backend teams to define technical requirements, plan sprints, and align deliverables with business goals.
- Conducted comprehensive code reviews, enforced coding standards, and maintained clean, scalable architecture following best engineering practices.
- Oversaw CI/CD pipelines, automated testing, build management, and deployment processes, ensuring stable releases and rapid iteration cycles.
- Monitored live game performance and player behavior analytics to identify improvement opportunities and guide feature enhancements.

01/10/2021 - 31/01/2025 - LAHORE, PAKISTAN

LEAD UNITY DEVELOPER UNDERGROUND STUDIO

- Supervise research and development of team for advanced gaming experience.
- Strong knowledge of the .Net framework 2.0 and above.
- Experience in AR Foundation (ARcore and ARkit).
- Experience developing standalone game tools.
- Experience with 3rd party frameworks.
- Exploring and integrating state of the art technologies using unity and devices along with it.
- Develop games of different genres for domestic and foreign markets.
- Coordinate with artists, QA and other internal developers to help maintain best practices for mobile apps and games development.
- Introduced agility and scrum to the work environment

01/07/2019 - 30/09/2021 - LAHORE, PAKISTAN

SENIOR GAME DEVELOPER UNDERGROUND STUDIO

- Developed F2P games for Android and IOS.
- Expertise programming skills and C# and C++.
- Implemented different game mechanics.
- Strong Knowledge of AR Foundation (ARcore and ARkit).
- Strong knowledge of API creation / management.
- Strong knowledge of MSSQL and other relational databases.
- Strong knowledge of OOP, design patterns and data structures.
- Developed limited scale cross platform prototypes.
- Built portfolio that includes various web, mobile, interactive and application works.
- Trained interns who later became developers with key roles in the company.

01/09/2017 - 30/06/2019 - LAHORE, PAKISTAN

UNITY DEVELOPER UNDERGROUND STUDIO

- Expertise in Unity.
- Developed games of different genres for Android and IOS.
- Strong knowledge of complex systems and new technologies
- Developed games from scratch, implemented different game mechanics.
- Integrating multiple SDKs in projects(DoTween, Google Firebase, Google Analytics).
- Experience with source code management in collaborative environment.
- Implemented add-ons in different games to improve user experience.

01/06/2016 - 30/08/2017 - FRANKFURT, GERMANY

JUNIOR WEB DEVELOPER (EXPERIENCE IN GERMANY) DGAN DEUTSCHE GEMEINNÜTZIGE GESELLSCHAFT FÜR AKADEMISCHE NACHWUCHSFÖRDERUNG MBH

- Developed user interface with modern JavaScript frameworks, HTML5 and CSS3 to improve user satisfaction.
- Conceptualized, created and managed dynamic web pages for data display and entry.\
- Experience with PHP and Web CMS Technologies.

21/08/2013 - 13/10/2015 - LAHORE, PAKISTAN

JUNIOR APPLICATION AND GAME DEVELOPER KARZANSOFT

- Developed and maintained android based ticketing application for transport service of UAE based company.
- Wrote clean, readable and reusable code that is well documented.
- Developed of Android chat application NEOO.
- Development of Android games in Unity.
- Maintenance and to update old games.

13/01/2013 - 15/07/2013 - LAHORE, PAKISTAN

INTERN GAME DEVELOPER GAMES ELEMENT STUDIO

- Learning Unity.
- Understanding game development.
- Development of small new games.
- Updating old games.

EDUCATION & TRAINING

2015 - 2018 - DARMSTADT, GERMANY

DISTRIBUTED SOFTWARE SYSTEMS- TECHNISCHE UNIVERSITÄT DARMSTADT

- Distributed Software Systems.
- Data Structure and Algorithms.
- Telecommunication 1.
- Telecommunication 2.
- Computer Networks 1.
- Computer Networks 2.
- Project Management.
- Cyber Security.

08/2009 - 05/2013 - LAHORE, PAKISTAN

BACHELORS OF SCIENCE IN COMPUTER SCIENCE (BSCS)- GOVERNMENT COLLEGE UNIVERSITY (GCU)

LANGUAGE SKILLS

Mother tongue(s): **URDU**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
GERMAN	A1	A1	A1	A1	A1
ENGLISH	C2	C2	C2	C2	C2

SKILLS

Game Systems Architecture Design | Unity | C# | Performance Optimization Strategy | Cross-Platform Development Methodology | Live Operations Analytics | Player Behavior Data Analysis | Monetization Strategy Development | Version Control System, e.g., Git | Team Leadership & Mentorship | Project Management & Agile Methodologies

PROFESSIONAL CERTIFICATIONS

Using AR Foundation in Unity

- Gained hands-on experience in developing cross-platform augmented reality (AR) applications using Unity and AR Foundation, integrating ARKit and ARCore for iOS and Android.
- Designed and implemented advanced AR features such as real-time object recognition, environmental plane detection, and interactive 3D content placement.
- Utilized AR Foundation to optimize AR app performance, ensuring fluid interactions and efficient tracking across diverse devices and environments.
- Developed intuitive user interfaces (UIs) tailored for AR experiences, incorporating spatial awareness and responsive design principles.
- Applied best practices in AR development, including light estimation, object scaling, and environmental mapping, to deliver immersive and user-friendly applications.

Developing AR/VR/MR/XR Apps with WebXR, Unity & Unreal

- Acquired expertise in developing immersive AR, VR, MR, and XR applications across multiple platforms, utilizing WebXR, Unity, and Unreal Engine.
- Designed and deployed cross-platform immersive experiences, integrating WebXR for web-based VR/AR applications and Unity/Unreal for more complex, high-fidelity immersive environments.
- Developed interactive 3D content, spatial UI elements, and real-time physics simulations for AR, VR, and MR applications, ensuring seamless user interactions.
- Applied industry-standard techniques for XR development, including object recognition, hand tracking, and environmental mapping, to enhance the realism and interactivity of virtual environments.
- Optimized performance and usability of AR/VR/MR applications, ensuring compatibility across various devices (e.g., HMDs, smartphones, web browsers) while maintaining high user engagement and responsiveness.
